<https://glukonddverse.vercel.app/>

PROFESSIONAL SUMMARY

Full Stack Web Developer and Computer Science undergraduate skilled in React.js, Next.js, TypeScript, and Node.js, with hands-on experience building responsive, accessible, and high-performance web applications. Comfortable across the full development lifecycle, from translating UI/UX designs into production-ready code to enforcing type safety, optimizing front-end performance, and deploying to the cloud. Experienced in mentoring developers, conducting detailed code reviews, and collaborating through Git and open-source workflows.

EDUCATION

Indian Institute of Information Technology (IIIT), Agartala

2025 – 2029 (Expected)

Bachelor of Technology in Computer Science and Engineering

Academic Standing: Semester 3 (in progress)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Full Stack Web Development, Database Management Systems, C/C++, Java

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, C/C++, SQL, HTML5, CSS3

Frontend: React.js, Next.js (App Router), React Hooks, Server-Side Rendering (SSR), Tailwind CSS, Bootstrap, jQuery, EJS, Responsive Web Design, Component Architecture, Cross-Browser Compatibility, DOM Manipulation

Backend & Databases: Node.js, Express.js, RESTful APIs, PostgreSQL, Supabase, Row-Level Security (RLS), Database Schema Design, MongoDB, Mongoose, SQL, JWT, OAuth, Webhooks, Web3, DApps

Cloud, Tools & Deployment: Git, GitHub, Vercel, CI/CD, npm, Google Cloud Platform (GCP), Postman, VS Code, ESLint, Prettier, Command Line

AI & Integrations: Vertex AI SDK, ChatGPT API, GitHub Copilot

Design & UX: Figma (Advanced Prototyping), Wireframing, UI/UX Design, Web Accessibility (WCAG), SEO & Open Graph Meta Tags, Adobe Photoshop, Adobe Lightroom, Visual Asset Optimization

TECHNICAL PROJECTS

GlukonddVerse — Full-Stack Portfolio Platform

Jan 2026 – Present

Live: <https://glukonddverse.vercel.app/> | GitHub: <https://github.com/parthibanaskar/GLUKONDDVERSE>

Stack: Next.js 15, React, TypeScript, Tailwind CSS, Supabase (PostgreSQL), Vercel

- Designed and developed a multi-page, full-stack portfolio platform using Next.js 15, React, TypeScript, and Tailwind CSS, deployed on Vercel.
- Built a modular, component-based architecture with reusable, strongly typed React components for maintainable and scalable UI development.
- Integrated a Supabase (PostgreSQL) backend to dynamically serve gallery, project-grid, and experience-timeline content, including database schema design and row-level security (RLS) policies for safe data access.
- Built a real-time guestbook feature using a Discord webhook integration to capture and deliver visitor submissions instantly.
- Implemented accessible, mobile-first responsive layouts aligned with WCAG guidelines, including semantic HTML and keyboard-accessible navigation.
- Applied TypeScript strict typing along with ESLint and Prettier to reduce runtime errors and improve overall code quality and developer experience.

- Optimized front-end performance through image asset optimization, code splitting, and Core Web Vitals improvements for faster load times.
- Configured SEO and Open Graph metadata and managed continuous deployment on Vercel using a Git-based workflow.

PROFESSIONAL EXPERIENCE

Social Summer of Code (SSOC)

2026

Mentor

Remote

- Mentored aspiring developers in full-stack web development and open-source contributions, guiding them through Git workflows, branching, and pull-request reviews.
- Conducted 40+ code reviews, providing actionable feedback on React.js, Node.js, and AI integrations to ensure production-grade, maintainable pull requests.
- Supported contributors with technical troubleshooting and debugging across frontend and backend issues, improving code quality and merge success rates.

The Prof. Glukondd Club

May 2026 – Present

Founder & Creative Director

- Founded an independent creative collective focused on challenging traditional media constraints and pioneering new pathways for creative work.
- Built and managed the technical production infrastructure, workflow protocols, and deployment environments for the club's digital portfolio.
- Conceptualized and designed experimental merchandise, blending aesthetics with the club's core thematic identity to bridge physical and digital spaces.
